The “Direct Admit to Hospital” element (TR17.30) indicates if the patient was a direct admission to your facility. Select an option from the drop-down menu.

The “Date Arrived in ED/Acute Care” element (TR18.55) is defined as the date the patient arrived at the ED/hospital. If you used the ‘Date/Time Helper’ from the Demographics Screen, this information will already be in the system. Also, if you would prefer not to type the date in, click on the calendar icon and select a date. The date is used to auto-generate two additional calculated fields: Total EMS Time (elapsed time from EMS dispatch to hospital arrival) and Total Length of Hospital Stay (elapsed time from ED/Hospital Arrival to ED/Hospital Discharge). This is a national and state data element.

The “ED/Hospital Arrival Time” element (TR18.56) is defined the time the patient arrived at the ED/hospital. The time is used to auto-generate two additional calculated fields: Total EMS Time (elapsed time from EMS dispatch to hospital arrival) and Total Length of Hospital Stay (elapsed time from ED/Hospital Arrival to ED/Hospital Discharge). This is a national and state data element.
